

MITEL

Superset 4025

Full function, multi-line, backlit digital display business telephone. The Mitel® Superset™ 4025 is a handsfree speaker phone with context-sensitive softkeys providing users fast and easy access to the full features / functionality of Mitel SX-200 IP Communications Platform (ICP) and Mitel 3300 IP Communications Platform (ICP) business telephone systems.

Enterprise Customers

For any user within the enterprise that requires information about calls they handle combined with user-programmable access to advanced PBX telephone system features. Ideal for users who must change their telephone feature set to match their changing needs, especially managers and professionals who may travel frequently, are often away from their desk, and frequently participate in conference calls. The Superset 4025 is also ideal for contact center help desk agents.

Expansion Modules

If the programmable keys on a Superset 4025 telephone aren't enough, adding 12, 48 or 96 more is easy with the Mitel Superset Programmable Key Module (PKM) 12 or 48. Also, the optional Analog Interface Module provides analog interface functionality that allows the simultaneous connection and use of one or more analog devices, such as a fax machine or modem, on a single DNIC port.
